Jason,

As per Under Review Form sent on 07.09.06 (attached), you can assign ECN#1028 as a reference to scrap the parts.

Subject: RE: -- UNDER REVIEW - D3288 REV. D & D3289 REV. C --

Here is the deal:

In short, this is to address a compatibility issue.
In length, as per Under Review Form, the mid float bag requires to be re-positioned 2" fwd and rotated 16.5 degrees inboard to ensure proper clearance when using some ground handling wheels units.

If we send those tubes to customers, chances are they will return them due to incompatibility.
As for scrapping the parts, I would scrap them but I am not authorized to make that call.
Please see Bill and/or Linda.
